School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a school district uses pesticides¹

IPM statement							
It is the goal of Brittan Elementary School District	to implement IPM by focusing on long-term prevention or suppression of pests						
	nitoring for pest presence, by applying appropriate action levels, and by making the mechanical and physical controls. Pesticides that are effective will be used in a						
	d the environment, and only after other options have been shown ineffective.						
Our pest management objectives are to: (Example: Foo	cus on long-term pest prevention)						
Control strategies in an IPM program include: Control strategies in an IPM program include: Control strategies in an IPM program include: - Facility Investigation to Scenity peat harborages and presence of conditions favorable to peats - Proper Identification of peats and an understanding of peat biology and behalvor - Structural and procedural changes to reduce the analitating of foot, water, and shelter to peats							
Use of application methods that presents a reduced potential hazard to humans and the environment.							
Coordination among all facilities management programs that have a bearing on the pest control effort	_						
IPM team In addition to the IPM Coordinator, other individuals	The section to the section making IDM decisions applying portioides and						
complying with the Healthy Schools Act requiremen	who are involved in purchasing, making IPM decisions, applying pesticides, and ts, include:						
Name and/or Title	Role in IPM program						
Heather Azevedo-Superintedent	If maintenance and administrative assistant are not available, Superintendent would call pest control services as needed for emergency situations.						
Carrie Ramirez-Administrative Assistant	Calls for service in emergency situations and posts the pest control schedule as well as maintians the website.						
Pest management contracting							
Pest management services are contracted to a	40 (2014) 41 (2014) 51 (20						
Pest Control Business name(s): King Pest							
Prior to entering into a contract, the school distr training requirement and other requirements of	ict has confirmed that the pest control business understands the the Healthy Schools Act.						
Pest identification, monitoring and insp Pest Identification is done by: Pest Control Service	ection						
(Example: College/Unive	ersity staff, Pest Control Business, etc.)						
Monitoring and inspecting for pests and conditions the Pest Control Service Maintenance Staff and District Employee	hat lead to pest problems are done regularly by ses and results are communicated to the IPM Coordinator.						
(Example: District staff title, e.g. Maintenance staff)	and results are communicated to the first essentiates.						
Specific information about monitoring and inspecting (Example: Sticky monitoring boards are placed in the kitchen and a	g for pests, such as locations, times, or techniques include:						
Contractor service requirements: The Contractor shall furnish all supervision, labor, materials, and equipment (excluminagement (including posticide application if needed, excluding sanitation and building maintenance), and post re	unding insect light traps, air custains, and other major expense items unless requested by the contract administrator) necessary to accomplish the inspection, monitoring, trapping, pest immoral components of the IPM program. The Contractor shall also provide detailed, site-specific recommendations for structural and procedural modifications to aid in pest						
prevention/exclusion. 2. PESTS INCLUDED AND EXCLUDED							

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Mice		Ø	1			1		Call Pest Control to Handle as well
Roaches	Ø	Ø				7		Call Pest Control to Handle as well
Ants	Ø	Ø	Ø					Call Pest Control to Handle as well

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Essentria-All Purpose Insect Consentrate		
Advance 36A		
DITRAC All Weather Box MSDS		
Drione Insecticide		
Eco EXEMPT IC2		
EcoPCO WP-X		
MAXFORCE FC Professional Insect Data Control Roach Killer Gel		jm
Suscend SC Insecticide SDS		ju ju

Healthy Schools Act

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt from HSA recordkeeping,
are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form
provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: www.brittan.k12.ca.us
- This IPM plan is sent out to all parents, quardians and staff annually.

Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: 11/30/2023

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: Date: 12/1/2022

These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gets or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
