

BRITTAN SCHOOL DISTRICT

Board Policy No. 0440 - DISTRICT TECHNOLOGY PLAN

The Governing Board recognizes that technological resources can enhance student achievement by increasing student access to information, developing their technological literacy skills, and providing instruction tailored to student needs. Effective use of technology can also increase the efficiency of the District's non-instructional operations and governance. The Board is committed to the development and maintenance of a districtwide infrastructure and to providing staff professional development that will allow the implementation of existing and new technologies.

The Superintendent or designee shall develop a three—to-five-year technology plan which:

1. Focuses on the use of technology to improve student achievement and is aligned with the District's vision and goals for student learning
2. Contains clear goals for the use of technology based on an assessment of District needs
3. Addresses all components required for state or federal technology grant programs, administered by the California Department of Education, in which the District participates (Education Code 51871.5, 52295.35; 5 CCR 11974; 20 USC 6764; 47 CFR 54.508)
4. Addresses the use of technology to improve District governance, administration, support services and communications

Planning Team

The Superintendent or designee shall appoint a planning team to assist with the development of the technology plan. The recommendations of the committee shall be advisory only and shall not be binding on the Board. The plan shall be submitted to the Board for approval.
