

BRITTAN SCHOOL DISTRICT

Board Policy No. 5121 - Grades/Evaluation of Student Achievement

The Governing Board believes that grades serve a valuable instructional purpose by helping students and parents/guardians understand performance expectations and identifying the student's areas of strength and those areas needing improvement. Parents/guardians and students have the right to receive course grades that represent an accurate evaluation of the student's achievement.

The Superintendent or designee shall establish a uniform grading system based on standards that apply to all students in that course and grade level. The Superintendent and teachers shall ensure that student grades conform to this system. Teachers shall inform students and parents/guardians how student achievement will be evaluated in the classroom.

A teacher shall base a student's grades on impartial, consistent observation of the quality of the student's work and his/her mastery of course content and district standards. Students shall have the opportunity to demonstrate this mastery through a variety of methods such as classroom participation, homework, tests, and portfolios.

The teacher of each course shall determine the student's grade. The grade assigned by the teacher shall not be changed by the Board or the Superintendent except as provided by law, Board policy, or administrative regulation. (Education Code 49066)

Students in grades K-3 shall receive progress reports rather than letter grades.

When reporting student performance to parents/guardians, teachers may add narrative descriptions, observational notes, and/or samples of classroom work in order to better describe student progress in specific skills and subcategories of achievement.

A report card for a student with a disability may contain information about his/her disability, including whether that student received special education or related services, provided that the report card informs parents/guardians about their child's progress or level of achievement in specific classes, course content, or curriculum. However, transcripts that may be used to inform postsecondary institutions or prospective employers of the student's academic achievements shall not contain information disclosing the student's disability.

Effect of Absences on Grades

If a student misses class without an excuse and does not subsequently turn in homework, take a test, or fulfill another class requirement which he/she missed, the teacher may lower the student's grade for nonperformance.

The Board believes that six (6) unexcused absences per trimester grading period constitute excessive unexcused absences. Students with excessive unexcused absences may receive a failing grade and not receive credit for the class(es).

Grade Point Average

The Superintendent or designee shall determine the methodology to be used in calculating students' grade point averages (GPA).
