

## **BRITTAN SCHOOL DISTRICT**

### **Board Policy No. 5141.6 - Student Health and Social Services**

The Governing Board recognizes that good physical and mental health is critical to a student's ability to learn and believes that all students should have access to comprehensive health services. The district may provide access to health services at or near district schools through the establishment of a school health center and/or mobile van(s) that serve multiple campuses.

The Board and the Superintendent or designee shall collaborate with local and state agencies and health care providers to assess the health needs of students in district schools and the community. Based on this needs assessment and the availability of resources, the Superintendent or designee shall recommend for Board approval the types of health services to be provided by the district.

The Board may employ or contract with health care professionals or partner with community health centers to provide the services under the terms of a written contract or memorandum of understanding.

Board approval shall be required for any proposed use of district resources and facilities to support school health services. The Superintendent or designee shall identify funding opportunities available through grant programs, private foundations, and partnerships with local agencies and organizations.

The Superintendent or designee shall coordinate the provision of school health services with other student wellness initiatives, including health education, programs that address nutrition and physical fitness, and other activities designed to create a healthy school environment. The Superintendent or designee shall encourage joint planning and regular communications among health services staff, district administrators, teachers, counselors, other staff, and parents/guardians.

#### **Consent and Confidentiality**

The Superintendent or designee shall obtain written parent/guardian consent prior to providing services to a student, except when the student is authorized to consent to the service pursuant to Family Code 6920-6929 or other applicable laws.

The Superintendent or designee shall maintain the confidentiality of student health records in accordance with law.

#### **Payment/Reimbursement for Services**

The Board desires that costs not be a barrier to student access to services. Services may be provided free of charge or on a sliding scale in accordance with law.

The Superintendent or designee shall establish procedures for billing public and private insurance programs and other applicable programs for reimbursement of services as appropriate.

The district shall serve as a Medi-Cal provider to the extent feasible, comply with all related legal requirements, and seek reimbursement of costs to the extent allowed by law.

To further encourage student access to health care services, the Superintendent or designee shall develop and implement strategies to assist in outreach and enrollment of eligible students from low- to moderate-income families in affordable, comprehensive state or federal health coverage programs and local health initiatives. Such strategies may include, but not be limited to, providing information about the Medi-Cal program on the application for free and reduced-price meals in accordance with law and providing students and parents/guardians with information about the low-cost Healthy Families insurance program.

#### Program Evaluation

In order to continuously improve school health services, the Board shall evaluate the effectiveness of such services and the extent to which they continue to meet student needs.

The Superintendent or designee shall provide the Board with periodic reports that may include, but not necessarily be limited to, rates of participation in school health services; changes in student outcomes such as school attendance or achievement; feedback from staff and participants regarding program accessibility and operations, including accessibility to low-income and linguistically and culturally diverse students and families; and program costs and revenues.
