

# Brittan Elementary School District

Heather Azevedo  
Superintendent/Principal

Hello Brittan Families,

I am thrilled for the 2023-2024 school year and excited to welcome you all back onto campus!

This year marks my 21<sup>st</sup> year here at Brittan Elementary School. Despite the many changes in my career path at Brittan, one thing continues to remain the same, and that is the passion I have for our school, staff, families and community.

Brittan is my home as it is yours, and together we can accomplish great things.

Our number one goal this year is to place a high emphasis on education for each and every student; every single day! When we think of education, we tend to think of the school day which is why attendance is so important. However, it is so much more than that. It starts with a strong relationship between family and school. It entails commitment from both parties to push our students to reach their very best. Supporting them here and at home with assignments, projects, exams and extra-curricular activities and making sure we carve aside time to meet individual needs as well as academic needs. It's making each student a well-rounded, happy and successful member in our community. It is setting a precedent that our time together is precious and valued.

Communication is a crucial component too. I encourage you to reach out to your child's/children's teacher throughout the school year. We also love having you as part of our team and would love to have you get involved around campus through our parent club (BPAC), Site Council team, or as a parent volunteer in the classroom.

This is sure to be another amazing year and on behalf of our entire staff; we are incredibly thankful to have you all a part of our Brittan Family!

Sincerely,

Heather Azevedo
